

**Questions and Answers sheet**  
**Solicitation 19PE5024Q0004 - Rucksacks**  
**November 2021**

**Question 1:** Does the Rucksacks have to be made in the USA?

**Answer:** Yes, line item description on page 3, SECTION 2 - SPECIFICATIONS AND TECHNICAL QUALIFICATIONS states:

Large ACU MOLLE II Rucksack or equivalent

-Gen-IV frame, Two sustainment pouches included with the pack,  
Adjustable padded shoulder straps and waist belt, Over 4,000 cubic  
inch capacity, Fits the modular sleep system, Top and bottom access,

**Made in the USA**, Genuine US Army Issue

-Cinch cord top-loading design that allows for the attachment of  
MOLLE compatible pouches to the outside of the ruck and waist belt.

The pack weighs 5 pounds but it's well worth that extra few pounds  
for a quality pack. The size of the packs main compartment is 18" x  
8" x 24"h and can be expanded to 22" x 20".
